- Monitor and optimize gas well and pipeline operations.
- Maintain superior housekeeping standards throughout the plant, field, and control room areas.
- Responsible for minor maintenance and the coordination of other maintenance activities.
- Understands and performs safety responsibilities such as hazard identification, equipment lockout, emergency response, implement safe work procedures, etc.
- Ensure compliance with environmental and safety regulatory requirements. Responsible for corrective action if required.
- Ensure effective communication with operations, maintenance, and management staff.
- Maintain proper documentation including operator log, maintenance records, and safety and environment reports.
- Ongoing performance improvement including job progression, site-specific training, process training, Solis training, etc.
- Willing to work extra hours and be on call as required.

Qualifications / Requirements:

- must reside within one hour of the plant site
- self-motivated, hands-on person
- grade 12 diploma
- Valid class 5 driver license

- Must be able to work on call shifts and weekends when part of regular shift rotation.
- 3+ years gas plant processing and compressor operating experience or equivalent.
- Demonstrated ability to learn new process, operations and have strong problem-solving skills.
- Operational and maintenance experience in gas compression, dehydration, pipelines, gas well equipment and hydrocarbon dewpoint control equipment.
- A basic understanding of well performance and reservoir behavior.
- Team player with strong interpersonal, organizational and communication skills required.
- Ability and confidence to work with minimal supervision.
- Self-motivated with a strong work ethic and is open to take on a variety of operational challenges.
- Proficient in the use of PC programs specifically in Word, Excel, PVR and Outlook.
- The work schedule may vary depending on operational needs.

Physical Requirements in the role:

- Must be able to work a 10-hour shift and be available to work an 8 on, 6 off rotation.
- Must be willing to work in warm and cold climate conditions when necessary
- Must be able to comfortably climb ladders and stairs and work at heights
- Must be able to lift a minimum of 50 lbs.
- Must be able to work in confined spaces for up to one hour at a time
- Must be able to work with hands below knees and or above shoulders for short periods of time up to 10 minutes
