RE: Lodi Gas Storage, L.L.C. R15-01-008 2020 Annual Report

Dear Mr. Charkowicz:

Lodi Gas Storage, L.L.C. (LGS) respectfully submits this 2020 Annual Report to the California Public Utilities Commission (CPUC) pursuant to R15-01-008. The attached 2020 Annual Report is comprised of this cover letter and the following documents:

- Attachment 3 Natural Gas Leakage Abatement Report
- Appendix 1 Transmission Pipelines
- Appendix 7 Underground Storage
- Appendix 8 Summary Tables

If you have any questions, or require more information, please contact me at **gclark@lodistorage.com** or at (209) 368-9277 x21.

Sincerely,

Gregory N. Clark

Compliance Manager

Enclosures (Attachment 3, Appendix 1, Appendix 7, Appendix 8)

Natural Gas Leakage Abatement Report

In partial fulfillment of

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno.

And In Response to Data Request Lodi Gas Storage, L.L.C. R15-01-008 2020 Annual Report

By:

Date: 6/15/20

Introduction

The following data¹ have been prepared to comply with Senate Bill 1371 (Leno, 2014), Section 2, Article 3, Order Instituting Rulemaking (OIR) 15-01-008, and to provide our responses to Data Requests Lodi Gas Storage, L.L.C. R15-01-008 2020 Annual Report.

Pursuant to SB 1371, Leno - Natural gas: leakage abatement, the California Public Utilities Commission (CPUC) requests that the following information be transmitted to the CPUC and the State Air Resources Board (ARB):

(1) A summary of changes to utility leak and emission management practices from January 1st, 2019 to December 31st, 2019. The report must include a detailed summary of changes, including the reasoning behind each change and an explanation of how each change will reduce methane leaks and emissions.

Response:

Various work was performed by Lodi Gas Storage, L.L.C. (LGS) during the 2019 Calendar Year, with the intent of minimizing methane emissions to the environment. LGS continued implementing best practices that were already in place and made efforts to further enhance this initiative.

Implementation of SB 1371 Best Practices is fully described in the 2020 Methane Leak Abatement Compliance Plan, submitted to CPUC in March

¹ As described in Data Request Lodi Gas Storage, L.L.C. R15-01-008 2020 Annual Report

- 2020. The SB 1371 Best Practice's that impacted methane emissions reduction during 2018 and 2019 are as follows:
 - BP #1 Compliance Plan General impact on reduction.
 Operations group greater awareness of importance to minimize methane release to atmosphere.
 - BP #2 Methane Potent GHG Policy General impact on reduction. Operations group greater awareness of importance to minimize methane release to atmosphere.
 - BP #3 Pressure Reduction Policy or Procedure Operations have attempted to reduce pressure as much as possible before blowing down piping/equipment.
 - BP #4 Scheduling Projects Policy or Procedure Operations have minimized gas release by running equipment longer before requiring blowdown.
 - BP #5 Methane Evacuation Implementation Procedures Operations are more consistent with methane evacuation process,
 having procedures in place.
 - BP #7 Bundling Work Policy More effort being made to bundle work activities, delaying blowdown, and reducing overall methane volume released.
 - BP #9 Recordkeeping More detailed record keeping by operations has resulted in greater accuracy for CARB annual reporting and reduction of assumptions.
 - BP #10 Minimize Uncontrolled Methane Emissions Training –
 Operations are trained to quickly and efficiently respond to uncontrolled releases.

- BP #11 Methane Emissions Reductions Policies Training –
 General impact on reduction. Operations group greater awareness of importance to minimize methane release to atmosphere.
- BP #12 Knowledge Continuity Training Programs Staff became directly involved with blowdown of piping/equipment and LDAR during 2019.
- BP #23 Minimize Fugitive & Vented Methane Emissions –
 Greater overall effort by operations to proactively inspect equipment for leaks and minimize the amount of volume blown down.
- (2) A list of new graded and ungraded gas leaks discovered, tracked by geographic location in a Geographic Information System (GIS) or best equivalent, by grade, component or equipment, pipe size, schedule and material, pressure, age, date discovered and annual volume of gas leaked for each, by month, from January 1st, 2019 through December 31st, 2019. Response:

See Appendices

(3) A list of graded and ungraded gas leaks repaired, tracked by geographic location in a Geographic Information System (GIS) or best equivalent, by month, from January 1st, 2019 through December 31st, 2019. Include the grade, component or equipment, pipe size, schedule and material, pressure, age, date discovered, date of repair, annual volume of gas leaked for each and the number of days from the time the leak was discovered until the date of repair.

Response:

See Appendices

(4) A list of ALL open graded and ungraded leaks, regardless of when they were found, tracked by geographic location in a Geographic Information System (GIS) or best equivalent that are being monitored, or are scheduled to be repaired, by month, from January 1st, 2019 through December 31st, 2019. Include the grade, component or equipment, pipe size, schedule and material, pressure, age, date discovered, scheduled date of repair, and annual volume of gas leaked for each.

Response:

See Appendices

(5) <u>System-wide gas leak and emission rate data, along with any data and computer models used in making that calculation, for the 12 months ending December 31st, of the reporting year.</u>
Response:

See Appendices

(6) <u>Calculable or estimated emissions and non-graded gas leaks, as defined in Data Request [Company Name] R15-01-008 2020 Annual Report for the 12 months ending December 31st, 2019.</u>

Response:

See Appendices

(END OF ATTACHMENT 3)

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno.

In Response to Data Request, R15-01-008 - 2020 June Report

Appendix 1 - Rev. 03/31/20

Notes:

Emissions included in the Report are based on miles of transmission pipeline. Therefore provide the miles of transmission pipeline in your system here.

The following data on transmission pipeline leaks is for information purposes and will not be used to report transmission pipeline leak emissions this year.

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value.

At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange.

Transmission Pipeline Leaks:

ID	Geographic Location	Pipe Material	Pipe Size (nominal)	Pipe Age (months)	Pressure (psi)	Leak Grade	Above Ground or Below Ground	Discovery Date (MM/DD/YY)	Repair Date (MM/DD/YY)	Scheduled Repair Date (MM/DD/YY)	Reason for Not Scheduling a Repair	Number of Days Leaking	Emission Factor (Mscf/Day)	Annual Emissions (Mscf)	Explanatory Notes / Comments
----	------------------------	------------------	------------------------	----------------------	-------------------	---------------	---------------------------------	------------------------------	---------------------------	--	---------------------------------------	------------------------------	-------------------------------	----------------------------	------------------------------

No transmission pipeline leaks in 2019

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno.

In Response to Data Request, R15-01-008 - 2020 June Report Appendix 1 - Rev. 03/31/20

Notes:

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value. At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange

Transmission Pipeline Damage (3rd party dig-ins, natural disasters, etc.):

ID	Geographic Location	Damage Type	Pipe Material	Pipe Size (nominal)	Pipe Age (months)	Pressure (psi)	Leak Grade	Above Ground or Below Ground	Discovery Date	Repair Date (MM/DD/YY)	Number of Days Leaking	Emission Factor (Mscf/Day)	Annual Emissions (Mscf)	Explanatory Notes / Comments
----	------------------------	----------------	------------------	------------------------	----------------------	-------------------	---------------	------------------------------------	----------------	---------------------------	------------------------------	-------------------------------	----------------------------	------------------------------

N/A No 3rd party damage emissions in 2019

Sum total

(

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno.

In Response to Data Request, R15-01-008 - 2020 June Report Appendix 1 - Rev. 03/31/20

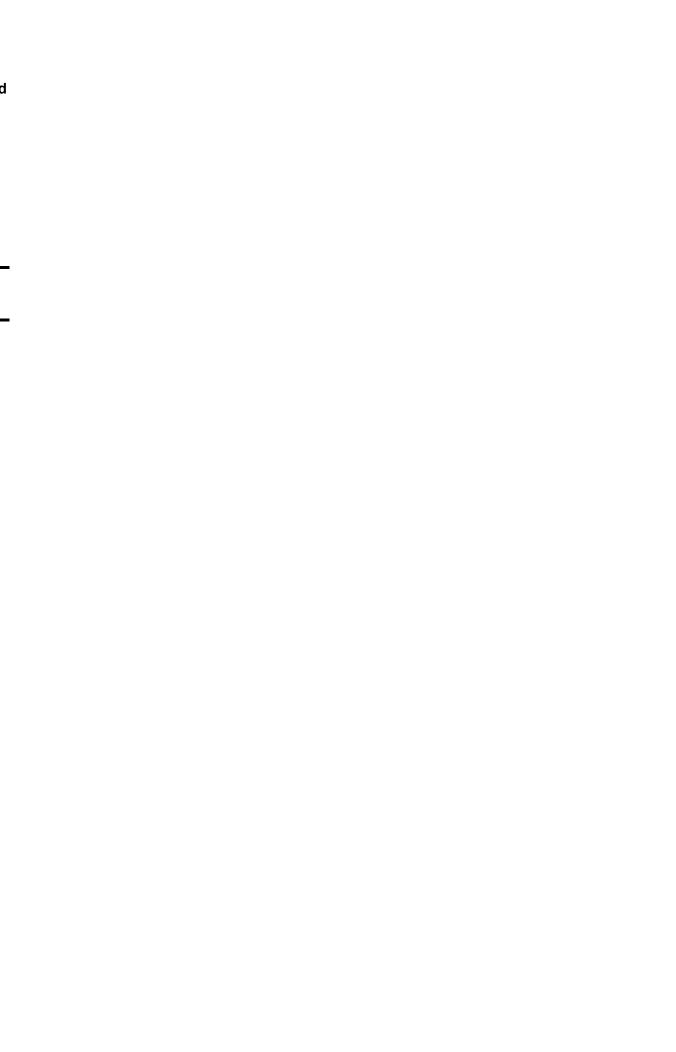

Notes:

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value. At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange.

Transmission Pipeline Blowdowns:

ID		Geographic Location	Number of Blowdown Events	Annual Emissions (Mscf)	Explanatory Notes / Comments
	1	95220	6	15	.70 Preventive maintenance on meter runs
	2	94585	2	0	.68 Preventive maintenance on meter runs

Sum total 16.38

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno.

In Response to Data Request, R15-01-008 2020 June Report

Appendix 1 - Rev. 03/31/20

Notes:

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value.

At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange

The emissions captured on this tab represent the emissions associated with the operational design and function of the component. Any intential release of natural gas for safety or maintenance purposes should be included in the Blowdowns worksheet.

Transmission Pipeline Component Vented Emissions:

Total Number of Devices	Device Type	Bleed Rate	Manufacturer	Emission Factor (Mscf/day)	Annual Emission (Mscf)	Explanatory Notes / Comments
N/A						No component vented emissions in 2019

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno. In Response to Data Request, R15-01-008 2020 June Report Appendix 1 - Rev. 03/31/20

Notes:

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value.

At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange

The emissions captured on this tab represent the emissions associated unintentional leaks that if repaired would not leaking. If the component is releasing gas or "bleeding" as a result of its design or function then it is not to be captured in this tab.

Transmission Pipeline Component Fugitive Leaks:

ID	Geographic Location	Device Type	Bleed Rate	Manufacturer	Discovery Date (MM/DD/YY)	Repair Date (MM/DD/YY)	Number of Days Leaking	Emission Factor (Mscf/day)	Annual Emission (Mscf)	Explanatory Notes / Comments
N/A										No component leak emissions in 2019

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks

Consistent with Senate Bill 1371, Leno.

In Response to Data Request, R15-01-008 2020 June Report Appendix 1 - Rev. 03/31/20

Notes:

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value. At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange

Transmission Pipeline Odorizers:

ID	Geographic Location	Number of Units	Emission Factor (Mscf/yr)	Annual Emission (Mscf)	Explanatory Notes / Comments
N/A					No odorizer emissions in 2019

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371, Leno. In Response to Data Request, R15-01-008 2020 June Report

Appendix 7; Rev. 05/28/20

Notes:

Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value.

At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange

Use the Population based emission factor if facility is not surveyed. Use Leaker based emission factor if facility is surveyed, and report only the found leaking components.

Underground Storage Facility Leaks and Emissions:

ID	Geographic Location	Source	Number of Sources	Discovery Date (MM/DD/YY)	Repair Date (MM/DD/YY)	Number of Days Leaking	Emission Factor (Mscf/day/dev)	Annual Emissions (Mscf)	Explanatory Notes / Comments

Notes:
Use a formula-derived value with the formula used in the Annual Emissions column. Do not use a copy and paste-as-value
At the end of Annual Emissions Column, add a summation total in a cell for a column total, and then highlight orange.
The emissions captured on this tab represent the emissions associated with the operational design and function of the compressor. Any intentional release of natural gas for safety or maintenance purposes should be included on the Blowdowns workshe

2020 Reporting Changes:

1) New Column for Measurement Frequency - See box comments. If you have any questions contact Ed Charkowicz at 415-703-2421 or via email.

2) Added new column for Emission Factor. Measurement Date - Pressurized Operations

3) Added a forth compressor operating mode "Offline". In addition, a measurement of emissions (EF) should be taken during Offline mode, to ensure that no emissions are eminating from the system

4) Alternate emissions measurement method, where applicable and measured by the operator:

5) Alternate emissions measurement method, where applicable and measured by the operator:

- Blowdown and Isolation valves

6) Measure centrifugal compressor emissions additional columns added for these emissions

- Dry seals

- Wet seals and solation valves

- Search and Search valves

- Wet seals

- Wet seals

- Wet seals

- Wet seal oil degassing vents in Pressurized Idle mode

Advance notice for 2021 reporting, CPUC Staff will propose quarterly reporting at the winter workshop. Therefore, as companies are requested to start measuring compressor emissions on at least a quarterly basis for the re

^{*}The term customers includes anyone that the utility is transporting gas for, including customers who purchase gas from the utility.

Customers can be anyone including residential, businesses, other utilities, gas transportation companies, etc.

Rulemaking (R.) 15-01-008 to Adopt Rules and Procedures Governing Commission Regulated Natural Gas Pipelines and Facilities to Reduce Natural Gas Leaks Consistent with Senate Bill 1371,

In Response to Data Request, R15-01-008 2020 June Report Appendix 8; Rev. 03/31/20

Summary Tables:

Natural Gas Properties	Average Mole Percent	Explanatory Notes / Comments
Methane		Natural gas meets PG&E specifications
Carbon Dioxide		Natural gas meets PG&E specifications
Ethane		Natural gas meets PG&E specifications
C3+		Natural gas meets PG&E specifications
C6+		Natural gas meets PG&E specifications
Oxygen		Natural gas meets PG&E specifications
Hydrogen		Natural gas meets PG&E specifications
Sulfur		Natural gas meets PG&E specifications
Water		Natural gas meets PG&E specifications
Carbon Monoxide		Natural gas meets PG&E specifications
Particulate Matter		Natural gas meets PG&E specifications
Inert Gas		Natural gas meets PG&E specifications
Odorant		Natural gas meets PG&E specifications
